Establishment of Taiwan Branch

In late autumn, we hope your business operations are running fine. Thank you very much for your continuous support as always.

We would like to make an announcement of the establishment of our Taiwan branch described below.

We will make our best efforts to enhance our services in Taiwan, where our important customers are intensively located, by assigning a full-time customer service engineer at the branch office. Points to be noted include agile response realized by strengthened cooperation with our factories in Japan.

We would be much obliged if you could continuously show us your guidance and support.
